FINAL EXAMINATION

TRIMESTER 2, 2022-2023

BFN2084 - PERSONAL FINANCE

4 JULY 2023
9:00 A.M. – 11:00 A.M.
(2 Hours)

INSTRUCTIONS TO STUDENTS

1. This question paper consists of 11 pages excluding the cover page.
2. This question paper is divided into two parts. Part I consists of 20 multiple choice questions and Part II consists of 4 structured questions. Attempt **ALL** questions.
3. Selected table and formulae are attached at the end of the question paper.
4. Please use **pen** to write the answers.
5. Please print all your answers for Part I and II in the **Answer Booklet** provided.

PART I: 20 MULTIPLE-CHOICE QUESTIONS (TOTAL: 30 MARKS)

1. Imagine you are driving your car with your friend. Your friend decides to break your window and throw a can of soda out the window, for whatever reason. The can hits a man just walking by, he falls and has a bleeding head wound. If this scenario happened, you could be sued for causing injury to others because the can came from your car. What type of additional insurance coverage you should take to protect yourself from being sued by the wounded man?
   a) Special perils
   b) Breakage of windscreen
   c) Legal liability of passengers
   d) No such insurance coverage

2. Most common risks are classified as:
   a) personal risks only.
   b) personal risks, unsuspecting risks and property risks only.
   c) personal risks, property risks and liability risks.
   d) personal risks, unsuspecting risks, property risks and liability risks.

3. Creating a personal insurance program requires a person to:
   a) set insurance goals, find insurance companies and develop a plan.
   b) develop a plan, put the plan into action and wait for recommendation.
   c) find insurance companies and subscribe the plan based on the recommendation.
   d) set insurance goals, develop a plan to reach the goals, put the plan into action and check the results.

4. Which of these statements is not true about No Claim Discount (NCD)?
   a) It encourages insured drivers to drive safely.
   b) The NCD indirectly helps to reduce the number of road accidents.
   c) Once you make a claim, your NCD will increase the following year.
   d) It is a reward scheme received by motor policy holders for not making a claim during the preceding 12 months.

5. Which of the following does not represent a speculative risk?
   a) Insurable
   b) Gambling
   c) Investing
   d) Guessing game

6. _____ clause is policy provision under which both the insured and the insurer share the covered losses.
   a) Peril
   b) Deductible
   c) Coinsurance
   d) Actual cash value

..Continued

7. _____ is an amount the insured must pay before benefits become payable by the insurance company.
   a) Peril
   b) Deductible
   c) Coinsurance
   d) Actual cash value

8. The five key drivers named as contributors to the yearly increase in private medical costs and claims in Malaysia include all the following except:
   a) baby booming
   b) advances in medical treatment
   c) imported equipment and medicine
   d) high prevalence of non-communicable diseases

9. Khadija's medical cost covered by her insurance policy is RM10,800. She wants to claim compensation from her major medical insurance policy with a deductible allocation of RM300 and a co-insurance percentage participation of 80/20. Find the amount of compensation she received.
   a) RM300
   b) RM2,400
   c) RM8,400
   d) RM10,500

10. Khadija's medical cost covered by her insurance policy is RM10,800. She wants to claim compensation from her major medical insurance policy with a deductible allocation of RM300 and a co-insurance percentage participation of 80/20. Find the total amount borne by Khadija.
    a) RM300
    b) RM2,400
    c) RM8,400
    d) RM10,500

11. Indemnity basis is:
    a) when the insurer pays the full cost to repair or replace the damaged or lost item and depreciation is not considered.
    b) when the insurer pays based on the current replacement cost of the damaged or lost item minus depreciation.
    c) when the insurer pays based on the current replacement cost of the damaged or lost item plus administrative fees.
    d) when the insurer pays the full cost to repair or replace the damaged or lost item plus deductible.

..Continued

12. What would it cost an insurance company to replace a family's personal possessions that originally cost RM100,000? The replacement costs for the items have increased 15%.
    a) RM100,000
    b) RM110,000
    c) RM115,000
    d) RM150,000

13. _____ policy provides benefits based on the actual expenses you incur.
    a) Premium
    b) Indemnity
    c) Deductible
    d) Reimbursement

14. The reasons to subscribe to an insurance is all of the following except:
    a) to reduce financial uncertainty
    b) to safeguard income
    c) to make profit from losses or damages
    d) to protect the loved ones financially

15. _____ is a government agency under the Ministry of Human Resources Malaysia that provides social security protection in terms of cash and benefits to employees in the private sector in case of workplace injuries, emergencies, occupational sickness, and death.
    a) AADK
    b) PIDM
    c) SOCSO
    d) BNM

16. What amount would a person with actual cash value coverage receive for two-year-old home amplifier destroyed by a fire? The home stereo would cost RM3,000 to replace today and had an estimated life of 5 years.
    a) RM600
    b) RM1,200
    c) RM1,800
    d) RM3,000

17. In the world of insurance, a second-party refers to the:
    a) policy holder
    b) insurance company.
    c) everyone else.
    d) bank.

..Continued

18. If your house is insured RM250,000 and your policy has a 1% deductible. In an event of a RM5,000 loss, how much will the insurance company pay for the loss?
    a) None
    b) RM2,500
    c) RM5,000
    d) RM7,500

19. _____ is a legal procedure of proving a valid or invalid will.
    a) Will
    b) Probate
    c) Intestate
    d) Estate

20. When someone dies without a will, he or she is known to be:
    a) interstate
    b) intermittent
    c) intestate
    d) interstellar

PART II: FOUR (4) STRUCTURED QUESTIONS (TOTAL: 70 MARKS)

Question 1

a) Describe six misconceptions about retirement and the importance of early retirement planning. (6 marks)

b) Determine the sources of retirement income. (4 marks)

(Total: 10 marks)

Question 2

a) Discuss the three methods of how mutual funds provide returns to their shareholders. (6 marks)

b) Determine net asset value (NAV) and calculate the NAV of an investment company with RM35,000,000 in assets, RM2,000,000 in current liabilities and 5,000,000 shares outstanding. (4 marks)

(Total: 10 marks)

..Continued

Question 3

Syafiq and his wife, Nurin would like to purchase a house at Borderland. Information about the desired home and their financial position are as follows:

Mortgage
- 25-year loan
- 3% interest rate
- 15% downpayment of the home purchase price

Annual Income
- Total household income is RM86,400.

Monthly Cash Outflows
- Grocery: RM 700
- Entertainment: RM 550
- Automobile loans: RM 800
- Insurance premiums: RM 230
- Utility bills: RM 280
- Credit card payment: RM 190

a) Find their debt service ratio and explain the value. (3 marks)

b) Determine their affordable monthly mortgage payment, affordable mortgage amount and affordable home purchase price using 33% guideline. (10 marks)

c) How can they improve their chances to purchase a more expensive home than the mortgage affordability calculated in part (b) above? (2 marks)

d) Syafiq and his wife are shopping for home insurance. Describe the two claim settlement methods for home insurance. (5 marks)

e) Suppose that Syafiq plans to take a home insurance valued at RM250,000 with a 1.5% deductible. Explain the term 'deductible' and calculate the amount of deductible to be paid. (5 marks)

(Total: 25 marks)

..Continued

Question 4

Akmal and Nina a.k.a. 'The Akmals'

The Akmals are in their mid-30s, and they have 2 young children. Akmal and Nina have reasonably secured jobs but they seem to struggle to make ends meet every month. Akmal is a car enthusiast who loves to splurge on car modification while Nina loves to travel and shopping for designer clothes and handbags. Their aggregate annual income of RM120,000 can barely cover their current expenses and they have very little savings. In addition to their lifestyle, they owe a huge amount of credit card balances, two car loans and a mortgage loan.

One fine day, they have a serious discussion on improving their money management and their lifestyle. The plans include the following:

- Akmal subscribes to a medical insurance plan with RM1,850 deductible, 80/20 coinsurance and stop-loss provision of RM3,000.
- Nina subscribes to a medical insurance plan with RM1,200 deductible, 70/30 coinsurance and stop-loss provision of RM3,800.
- Start saving for their children's education by depositing RM1,000 at the end of each year for 10 years in an account earning 5.5% annual interest rate.
- To subscribe a life insurance for Akmal to protect their family financially.

About 6 months after subscribing the medical insurance plans, Akmal and Nina were involved in a rear-end collision. The driver of the other vehicle was found to be texting when crashed into Akmal's car. Fortunately, the children were not with them during the incident.

Based on the information above, answer the following questions:

a) Compute The Akmals' estimated life insurance using the multiple income method. Which one would you suggest? (6 marks)

b) The damage cost to the car due to the accident is RM9,878. Akmal has a comprehensive auto insurance policy. How much will the insurance company pay for the damage? (2 marks)

c) As a result of the accident, Akmal's medical costs for treatment, including medicines, tests and hospitalization totaled RM6,700. Compute the amount borne by Akmal and the amount that the insurance company will pay. (6 marks)

d) Nina's total medical costs for treatment, medicines, tests and hospitalization is RM3,800. Compute the amount borne by Nina and the amount that the insurance company will pay. (6 marks)

e) How much is the amount they would have saved in 10 years for their children's education? (5 marks)

(Total: 25 marks)

End of questions

SELECTED TABLE AND FORMULAE

Exhibit 9-9 Mortgage payment factors (principal and interest factors per $1,000 of loan amount)

Term Rate	30 Years	25 Years	20 Years	15 Years
